

Make the best choice for your business.

Aftonomo by Eunice, is an innovative solution that can make your business energy AUTONOMOUS and INDEPENDENT. An All-in-One system, which is able to produce, store & smartly manage your clean, green energy!

With smart IoT devices & a cloud management platform that integrates artificial intelligence, Aftonomo by Eunice allows full control of your business energy usage.

**THE AFTONOMO SYSTEM,
SIGNIFICANTLY REDUCED MY OVER-
HEADS AND HENCE I WAS ABLE TO
HIRE ADDITIONAL STAFF FOR MY
BUSINESS.**

NIKOLAOS ALEXOPOULOS
Business Owner

Financial Gains●

- Reduce your overall electricity bill
- Reduce the cost of travel
- Generating further income from selling your energy

Complete management●

- Remote monitoring of your energy usage data in real-time
- Safe & easy remote control of all your devices, through the app
- Ability to optimize & adjust the system to your needs

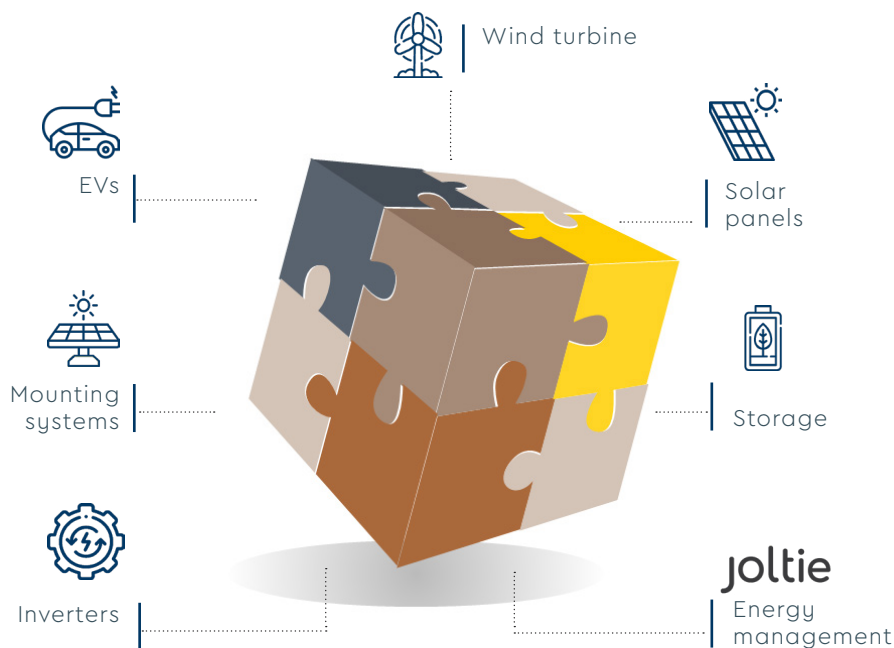

Energy Autonomy & Independency●

- Reaches up to 100% autonomous operation
- Continuous power supply even when you are cut off the grid

A complete solution of smart energy autonomy & independence, in a single system!

Fully manage the energy you produce, store and consume and become energy independent. Your business can still operate at full scale even when your power supply from the grid is interrupted.

SMART.
ADAPTABLE.
ALL IN ONE.

Eunice Energy Group

Eunice Energy Group, established in 2001, is the first Greek Group to:

- Develop & invest in Renewable Energy Sources (RES) projects
- Generate & allocate electricity SOLELY from Renewable Sources

With an all-round knowledge & a complete technical know-how in the electric power sector, Eunice Energy Group is the “partner of choice” for global organizations, international companies & funds for projects in Greece, the Balkans & the South East Mediterranean region.
